Meaningful Moments Framed by the Aegean Sea

A Place for Connection and Inner Journeys

Conceived as a modern answer to the Greek agora or gathering place, Scorpions is a place for connection, festivities and inner journeys. With a love of food, music and design at its core, each Scorpions location brings together creative and culinary exploration, seeking to enrich the cultural and social life of our growing community.

From weddings and birthday celebrations to brand experiences, our locations also offer a range of settings and possibilities for hosting private events. In the pages that follow, you will learn about our Bodrum venue and how to curate a truly unforgettable gathering.

Scorpions Bodrum

Our Bodrum location takes Scorpions' immersive beach concept one step further, with contemplation and wellbeing areas sitting next to Scorpions' signature music and dining settings.

Located on a pristine peninsula of the Turkish side of the Aegean Sea, Scorpions Bodrum features a unique Ritual Space, stages for celebration and open-air dining concepts. Here, guests can also stay overnight with the flexibility to move between moments of celebration and self-connection — a further invitation to slow the pace and take in the present moment.
